requently used to test the temperature of the body and show the first signs of With the most careful management there is undoubtedly an element of danger attending very high feeding; but possibly we have over-estimated the ex-tent of this danger. Many animals fed to lay on fat are carefully fed all they can be induced to consume, month after month, sometimes year after year, and frequently with no apparent injury to health. The writer hereof saw Mary Anne, of St. Lambert, soon after the close of her wonderful test, extending over nearly a year, during which she had been highly fed, and on the same day, the two noted fat show cattle at Bow Park, one of which has been "crowded" since his birth, the other more than year. All three seemed in good health Wus the strain on the milk cow much greater than that on the fat animals? She gave a much greater quantity of product, in her milk, than did the thers in accumulation of tlesh; but is it certain that there was a greater tax on her system? It has frequently been pointed out that the cost of the food

eaten by the cow, in some reported tests, exceeds the value of the butter produced. If we count the cost of superintendence and of the extra labor in-volved, it is not probable that the value of the butter equals the total cost in any official test." It is equally true that the cost of preparing a good many animals which have wen bonors at our fat stock shows have been greater than their value; but there is an interest and value in ascertaining the possibilities of production, and we would not discourige a reasonable number of tests made for this purpose without reference to cost

It is clearly true, however, that re-sults reached by methods reasonably approximating those which practical feeders and dairymen find profitable in practice have a more direct value than those which are the result of extra feed-age. There is as much pleasure derived bronicling the result of a remarkabla test where the milk cow how has been fed only modeate rations as where a still greater product has come from a greater consumption of food. Results where a remarkable product has been secured at a profit to the feeder are the most desirable to record. - Proxice's

LOVE IN DEATH.

Tragic Ending of Love's Young Dream to a Despairing Couple in Texas.

A Monrotul Dying Declaration. "As We Oan Not Be United in Life, We Will Be in Death."

And So They Found Them Locked in the Icy Embrace of the Grim Monster.

Dallas, Tex., September 28.-A tragedy of a sadly romantic character came to light here yesterday that was first shrouded in mystery, but investigation by reporters uncovered the whole affair The first knowledge of the tragedy was obtained through the discovery in the woods, just beyond the corporation limits on the West fork of Trinity River, of where the dead budter of two per sons. The victims, when first discovered, lay ride by side, the man's arms extended and partly lying on that of his love, as if in the agenies of death, he had sought to embrace her in his convui sive grasp She was apparently aged about eighteen, were a dismond broach and was dressed with exquisite taste, which bore no ontward evidence of pov crty, he was apparently a few years her souler. Between them lay a revolver with two chambers empty, talling the story of the murder and suicide
When discovered both were dead but

their bodies were not yet cold. They heft a scrap of a paper that showed their planning and execution of this terrible deed had been deliberate, and that it was the old, old story of love, despair and death rather than separation. The scrap of paper contained the following, written in a plain, round hand: "As we can not be united in life, we

will be to death. Ground Form ick, The note, showed plainly the cause and gave the reporters a clew as to the identity of the parties, which was suc cosemily followed. At a late hour list night it was positively learned that the vonna woman was a sister of W. H. Nanny, a we lithy and well-known citizen of Fort Worth. The joung man is said to have been a young German officer on a year's leave, which would have expired next month. His family in Germany refused to hear of his marriage to the young

A Free Vote and a Fair Count— Golden Words. North American Roview, March, 1879

50,000,000 of people—with a contr nent for their possession—can only be wielded permanently by being wielded honestly In a fair and generous struggle for partisan power let us not forget those issues and those ends which are above party. Organized wrong will ultimately be met by organized resistance. The sensitive and langerous point is in the casting and the counting of free ballots. Impartial suffrago is our theory It must become our prac tice Any party of American citi zens can bear to be defeated No party of American citizens can bear o be defrauded. The men who are interested in a dishonest count are units. The men who are interested in an honest count are milhons I wish to speak for the millions of all political parties, and in their name to declare that the Republic must be strong enough, and shall be strong enough, to protect the weakest of its citizens in all their rights. To this simple and sublime principle let us, in the lefty language of Burke, "at test the retiring generations, let us attest the advancing generations be tween which as a link in the great chain of eternal order, we stand!" Death of Maj. Charles W. Wniteit. Charles W. Whitsit, a well-known citi

zen, who has long been associated with Joseph Michl in the ice business, died ... 10 cts. this (Monday) morning, at the home of his brother, in Indianapolis, where he has been receiving treatment for some days The sad news was received this forenoon by Mrs. Whitsit, who got a telegram from indianapolis. The body will be brought to Decatur to-morrow morning and the funeral will take place from the family residence, on West Wood street, at three o'clock in the afternoon, Rev. W. H.

Prestley officiating. The deceased had been in bad health five children. His age was about 50 years. He was a veteran of the late war, serving in the 6th Illinois Cavalry. He was a member of Dunham Post No. 141, Grand Army of the Republic, and in health was a nacful and generous citizen.

Decatur Boys Alive. The report that Carlton King and young Sam Smith were killed Sunday morning, near Jacksonville, proves to be false. Word came to the city last evening that both were killed by falling under a train east of Jacksonville. The report was investigated without delay. It was learned that two boys were killed in the manner stated, but their names were Daniel Carlton and Jacob Weist, of Morgan county. Carlton went to Springfield Saturday evening on the Republican special train, and will return home to-morrow. He is alive and well, and so is young Smith.

Church Notes. Roy, T. I. Coultas, the new pastor, occupied the pulpit at the First M. E. church on Sunday and presched two excollent and scholarly discourses, the one at the morning hour being particularly prosperous year for the church. Rev. Coultas, though but 31 years of age, is one of the brightest ministers in the conference, having a fine command of language and possessing elecutionary talents of merit. At the close of the morning service the congregation went forward and gave the new minister a personal welcome. At night the large audience com was crowded.

Rev. Vosburgh's sermon on Jerry Macaulay, at the Baptist church, was heard by a large congregation, and is highly spoken of by all who Leard it.

At the midnight hour Saturday night at Springfield, on Washington, the noted street of toughe, Perry Gilman, a white man and the boss of the street car stables, was shot twice and killed by a man who were a white hat and got away in the excited crowd. Reliable statements are to the effect that Gilman was standing in the stable door when the unknown man wearing the white hat passed by in company with a friend. Gilman said something about the hat, when the stranger stopped and talked back. The men struck at each other and Gilman fell. He went into the stable and came out with a club. He knocked the stranger down. when the latter fired, the bail making a wound in the abdomen. Then more blows were passed, when a second shot was fired by the stranger, the ball passing through Gilman's heart. He died instantly, and the murderer got away. Gilman had a wife and one child. The officers thus far have failed to eatch the murderer. This was the only shooting affray of the night.

MR. ED. MAY, the contractor, architect and builder, who makes a specialty of putting up farm houses, is now located at Ivesdale, Ill. Mr. May has lately built a splendid house for Mr. Melhorn in Decatur. It is a standing advortisement of his workmanship and skill.

SUNDAY evening while the family were at church, a burglar effected an entrance to the residence of Mr. E. S. Roe, at 571 West Pranie street. He sprang open the shutters of a bed room window, and finding the window up he cut the wire screen and entered, but he could go no further as all inside doors were locked He went through a dresser and trunks in the room. but took nothing of value. He also out the acroons of the bay window. The family found burnt matches in the rooms entered, but they do not miss anything of value

4,000 Men in Line-Sangamon Demo crats Sick.

Saturday night was a monster political gath ering, and in point of numbers and enthusiasm, double-discounted that given by the Democrats on the 17th. Then there were 2200 men in line. Saturday night there were at least 4,500 in the procession which marched on the clean paved streets four to five miles, headed by young men on bicycles, carriages containing Senator Cullom, Col. Donan, Socre for several years. He leaves a widow and tary Demontand other distinguished gentlemen. There were 21 bands and 19 drum corns in line, and with the cheering there was plenty of noise and enthusisem to make the dome crats sick. Alorg the line of march hundreds of residences and lawns were beautifully illuminated, particularly those of Senator Cullom, Bluford Wilson, Mr. Ordway, Jacob Bunne Mr. Tracy, residences along Capitol avenue, John Block Mr Kimber, and about the souare The Palace hotel, A. Nebinger's store and other stores in great numbers were nicely illu minated. Mrs. Shoj hord's boarding house had out a transparency reading: "25 votes for Blaine: 1 for Cleveland." Along the route the Docatur Escort Club gave three cheers for the strikingly beautiful decorations, and the ladies from the plazzas and boulevards waved their handkerchiefs in acknowledgment. Decatur sent down a special train carrying 550 people, accompanied by Goodman's bands the Escort drum corps, the Blaine and Logan

> form, over 100 of the Old Guard and 25 of the piored club, with many others from Decatur Harristown and Niantic, Boody, Oakley, Loug-Crock and other points in the county, who marched in the procession, making a showing of 400. On arriving at Springfield Major Young enmanded the hattaiten which welted on Washington street for the procession to pass on Sixth street, so it could fall into the 8th corps, the Capital City Republican Chib taking the lead. While waiting for the word to move the Escort Club was subjected to outrageou insuits by a drunkon growd of Springfield icmoorate who blocked the pavement in front of Quinu's saloon. The hoodium gang shool their flets at the Decetur buttailon and howled at them in a threatening manner for fully half an hour; but fortunately the Decatur boys kept their tempers and let the drunken met owl until they got throd. The democratic policemen kept away until about the time the attallon moved off, and the fellow who ran out from the sidewalk with a pictel in his band ner and cormitted to go home. This incident was the only thing that marred the pleasure of the trip.

> upon the fine appearance made by the Decatur Escort Club, and the beautiful banner carried by Henry McCiolian was greatly admired by all along the route. Members of passing companies and people from boulevards ran out nto the streets and asked; "Where are you from?" and gotting an answer would yell: "Hurrah for Decatur?" The ladies would call to each other at different points. "Here come the daisies?" and then frantically wave their handkerohiefs. Goodman's band and the Escort drum corps came in for their share of ommendation. The Glee Club was converted into a martial band and marched at the head of the Old Guarde.

After the parade Goodman's band gave the State Journal office a fine soronade, and at 12 o'clock the special train left the city for the eturn trip, which was made without accident, arriving here at a few minutes past l'elock. THIP NOTES.

The Springfield Register of Sunday morning ud: "The Decatur Lecort Club was the neatest club in the line of murch last night." The speaking took place on the square from the court house steps. The speakers were Benator Cullom, Col. Donan, Col. N. A. Reco and others.

Fortungtely J. B. VOLCANO.

THE BEST

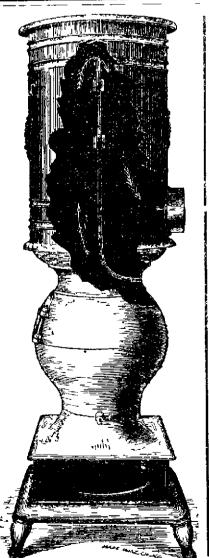

Soft Coal Heating Stove Made.

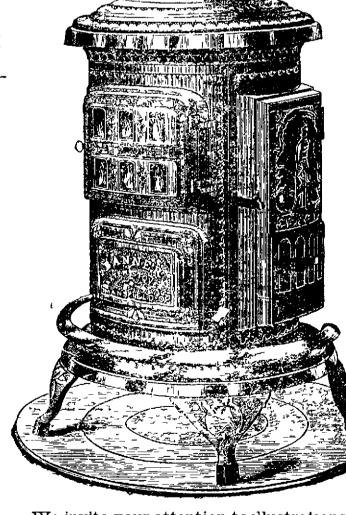

HAS MANY IMITATORS BUT NO EQUALS.

This Stove is constructed with the intention of using a drum, in which is placed a division plate, as shown in sectional cut. By its use the greatest heating capacity of the drum section is obtained, and much of the heat, which in ordinary stoves would pass up the flue, is saved. The castings in all sizes are extremely heavy and durable. The best evidence of the good qualities of the stove is the fact that it has now been made nearly twentyflye years, and in that time it has been found unnecessary to change it in any way. They never fail to give satisfaction.

This stove is especially adapted to the use of churches, schools, public halls, and all other places where a large amount of heat is required.

We have it in 5 sizes, ranging from 180 to 500 lbs. in weight.

We invite your attention to illustrations and descriptions of some of our other patterns, which will be found in the Daily Herald and Daily Review, especially our SQUARE PENIN-SULAR, PEERLESS PENINSULAR and BANNER say enough for.

Why Women Write.

A witty Frenchman has observed that when a woman writes a book there is

hook the more and a wom in the less in the sum total of the world

George Sand proudly boasts that the tent of losing any of her womanly charms by the addition of a gray han

to her inven locks, or the plowing of a single wrinkle on her brow, never de-

terred her from hours of midnight study or days of unintermittent intellectual production. The opinion of the world

on the subject of the entrance of the weaker sex into literary pursuits has currously fluctuated from time to time

We know the position cultured women occupied and the influence they pos sessed during the age of the greatest
